

# NATURAL BUILDING WORKSHOPS

Narara Ecovillage, Central Coast, NSW

COMING SOON  
IN 2020

- earthbag
- light straw
- strawbale
- earthblock
- clay rendering
- earthen floors
- bottle bricks
- green roof
- vertical gardens
- and more

Narara Ecovillage is building 60 houses in Stage 1, including different styles of natural building.

In Stage 2 there'll be another 40 houses.

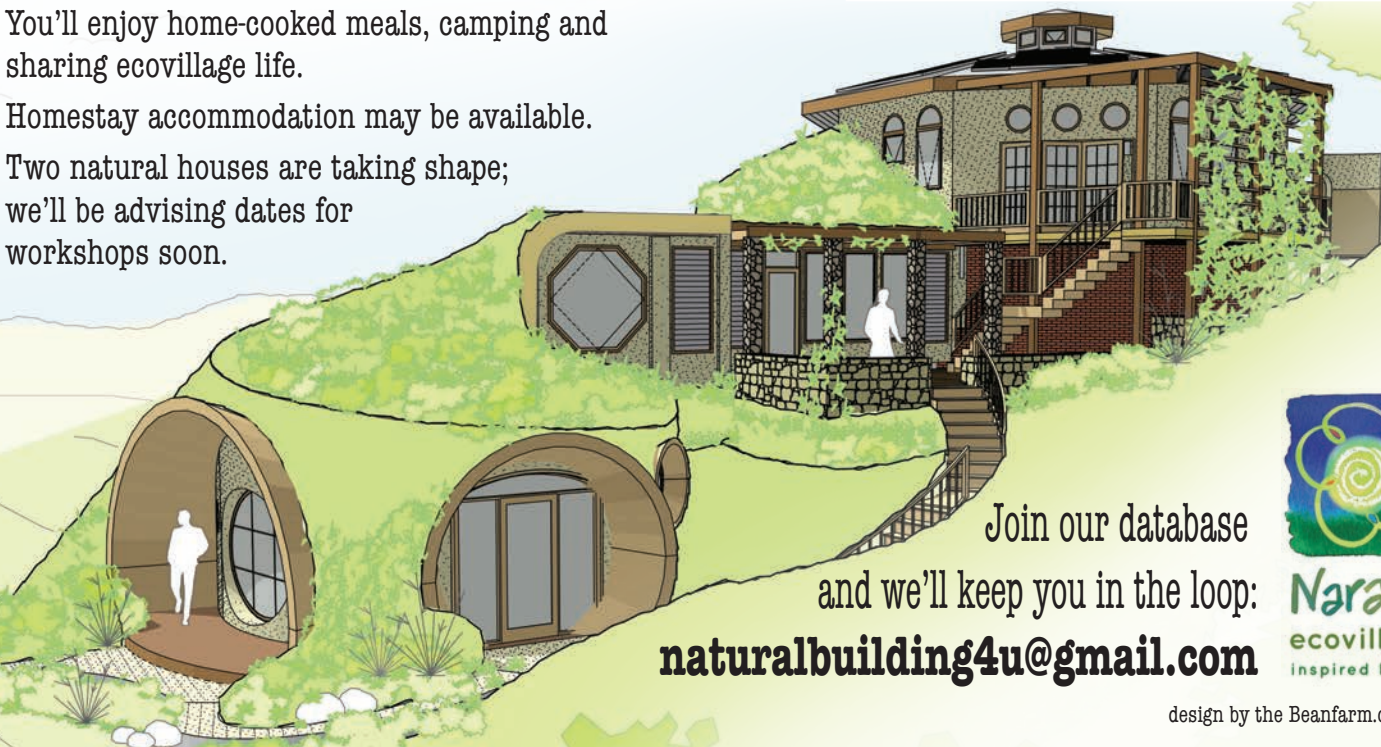

So, if you want to get involved, there's plenty of opportunities in volunteering and workshops, working side-by-side with like-minded people, learning and having fun.

You'll gain hands on experience using natural materials such as clay, straw, oxides, renders and plasters.

You'll enjoy home-cooked meals, camping and sharing ecovillage life.

Homestay accommodation may be available.

Two natural houses are taking shape; we'll be advising dates for workshops soon.

Join our database  
and we'll keep you in the loop:
